

Wilson Auto-Bay Curtains

Curtains

Fabricated with double polished vinyl sheeting and reinforced vinyl "Rip-Stop" material for strength and durability. All curtain fabrics meet the California State Fire Marshall and NFPA 701 requirements for flame resistance. Curtains feature dielectrically sealed seams and hems for integrity, stronger than needle stitched manufacture. Brass grommets are placed at 12" centers across top of curtain for proper drape support. Totally enclosed chain weight is secured above the bottom hem for curtain ballast. 2" x 12" hook and loop fasteners are placed on edges of each panel for mating of curtains to attain tightly sealed enclosures.

Pricing is determined by rounding up to the next whole foot.

HEIGHT

6'	7'	8'	9'	10'	11'	12'	13'	14'	15'	16'
\$18.46	\$19.89	\$21.33	\$22.76	\$24.25	\$25.74	\$27.17	\$28.82	\$30.32	\$34.94	\$36.54

Roller track hardware (shown on page 5) included.*

* Exception – Floor mounted hardware offered at an added cost.

Size Your Own Workstation

5 Easy Steps to Ordering

- 1. Height** – Determine the overall preferred height of your curtains.
 - Ceiling Flush Mount – measurement taken from ceiling to floor
 - Suspended Units – measure total overall height to include track.
- 2. Width** – Determine the necessary width (total linear foot measurement) of each side of your design.
 - Example – Single Curtain Unit measuring 33'; Two Curtain Unit, one measuring 12' and one measuring 26'; Three Curtain Unit, one measuring 28' and two measuring 14' each.
- 3. Curved Corner Sections**
 - Standard curtain sections will connect at corners in a 90° angle design. A 90° Curved Corner section is available at an added cost.
- 4. Track Mounting Hardware** – To complete your design, determine if your curtains and track system will be:
 - Flush mounted
 - Suspended from the ceiling with threaded rod or cable
 - Ends to be wall mounted
- 5. Pricing** – Determine the total price of your system.
 - Add the widths of your curtains together and multiply by the cost which corresponds with the height of curtains shown below.

Example: 2 sided unit measuring 10' high with one side 20 In. ft. and one side 12 In ft. = \$776.00

Curtains are available in 6 styles and a variety of color selections.

Curtains can be accessorized with:

- Vinyl mesh windows for air flow management
- Vinyl scrim panels for paint mist filter placement
- Floor mounted tie down attachments to secure curtains from excessive movement

Curtains are warranted from defects of material and workmanship for a period of five years when used under normal work conditions.
