

The Wilson Story

Since 1957, Wilson has prided itself on being at the forefront of technology. By researching today's scientific and engineering developments and applying them to tomorrow's safety needs, Wilson has consistently produced a superior line of quality safety products.

The products featured in this catalog represent the best of traditional Wilson: many years of constant development and a continuing effort to provide our customers with the highest quality products at a reasonable price.

Wilson products are designed to improve the overall working environment and assist in increasing productivity. All of our products meet or exceed OSHA specifications. Through our leadership in the safety field, the complete Wilson line has played an important part in the safety programs of various companies.

When you specify Wilson products, you are assured excellent quality supported by years of experience, family pride and commitment to customer satisfaction.
